Download FLASH

click on the SYMMETRY tool 

create a radial symmetry design by...

1. Select a large diameter / brush size, start drawing.
2. Divide your diameter in half and change the color. Draw more!
3. Repeat step 2 until your brush size / diameter is small.
4. You can also add or subtract SYMMETRY POINTS
5. Take a screen shot (⌘ SHIFT 4) and email to teacher
